Summary

I'm a passionate full stack web developer who loves creating meaningful and impactful applications. I have experience building dynamic, user-friendly web apps using modern technologies like React, Next.js, and Apollo GraphQL. I thrive in collaborative environments, enjoy working with cross-functional teams, and am always eager to learn and grow. I believe in writing clean, maintainable code and am dedicated to continuously improving my skills and contributing to the success of the projects I'm involved in.

Skills

- **Frontend**: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Figma, Ant Design, Bootstrap, DaisyUI
- **Backend**: Node.js, Express.js, Apollo GraphQL, Sequelize
- **Database**: MongoDB, Mongoose, PostgreSQL
- **API Development**: RESTful APIs, GraphQL APIs

- **Version Control**: Git, GitHub
- **Deployment & CI/CD**: Netlify, Render
- **Other Technologies**: OpenAI API, JSON, Axios

Experience

Front End Developer   May 2024 to Aug 2024
Dyno-AI — Madison, WI
- Developed and integrated front-end components using React and Apollo GraphQL to enhance performance and scalability of customer-facing applications.
- Collaborated closely with back-end developers and product managers to define UI/UX components, ensuring alignment with business goals and user needs.
- Implemented unit tests and conducted code reviews to maintain high code quality and support continuous integration practices.
- Managed a backlog of tech debt and prioritized internal efficiency improvements.
